PROFESSIONAL SUMMARY

I am a front-end developer passionate about leading teams that build impactful technology with modern technology frameworks. As a developer, I build high-performing applications with HTML, CSS, Javascript ES 2016, and React.js in a fast-paced environment. As a leader, I enjoy collaborating with talented engineers to reach our goals and build all team members into better versions of themselves.

SKILLS

Programming Languages: JavaScript ES 2016 (Proficient), JQuery (Familiar), CSS (Experienced), HTML5 (Experienced)

Technologies: React, Redux, Node, ESLint, Sass, Git, Docker, MySQL, GraphQL, PostgreSQL, MongoDB

WORK EXPERIENCE

Front-End Developer | Camino Verde | <https://cvtreedatabase.netlify.app/> **July 2022-Present**

- Implemented web directory with Airtable API to display data from 650 tree species, using 1000 lines of React.js code.
- Designed dynamic UI with React components to increase user engagement and accessibility by 100%.
- Applied filter functionality to improve user access and speed up the search process by 80%.
- Technologies used: React.js, Node.js, Airtable API, JavaScript, CSS, Sass, HTML5.

Project Manager | City Council Agenda Notifier **March 2022-Present**

- Led 7 engineers and designers to develop a mobile app that notifies users of upcoming city council agenda items, increasing notification efficiency by 40%.
- Delegated tasks according to the strengths of each team member to speed up project deliverables by 50%.
- Maintained communication of task delegation through Slack and managed tasks through Trello.
- Technologies used: React.js, Node.js, JavaScript, CSS, SASS, HTML5, Trello, Slack

PROJECTS

Front-End Developer | Friendship App | <https://glacial-plains-58535.herokuapp.com/> **December 2021**

- Developed application to connect like-minded people using tier-list rankings, resulting in a user base of 100 users.
- Engineered drag-and-drop functionality with React library to streamline ranking process by 80%.
- Technologies used: React.js, Node.js, JavaScript, CSS, Sass, HTML5, GraphQL.

Front-End Developer | Paxamour E-Commerce Site **March 2022-Present**

- Supervised team of 2 front-end engineers and UX designers to develop an e-commerce site for a startup business.
- Developed engaging product page with visual elements and new payment methods to streamline checkout process.
- Technologies used: React.js, Redux, Node.js, JavaScript, CSS, HTML5, Firebase

EDUCATION

Full-Stack Developer Bootcamp Certificate, University of California, Davis **December 2021**

- A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, NodeJS, MySQL, MongoDB, Express, Handlebars.js & ReactJS.

Bachelor of Arts, Psychology & Sociology-Organizational Studies, University of California, Davis **June 2020**
